

PRANIT PATIL (Frontend Developer)

dev@pranitpatil.com

📍 Navi Mumbai, India

Experienced Front-end Developer skilled in React, I specialize in crafting performance-oriented frontend applications. Eager to contribute expertise in building robust, high-performance solutions for exceptional user experiences.

EXPERIENCE

Full Stack Developer Team Lead

WebxStudio Digital

📅 November 2022 - July 2023

- Involved in important tech decisions which helped to optimize the costs and time.

Project - Doublestar

- Used Strapi as backend and React Native (Expo) as frontend.
- Lead the team of 4 interns for development.
- Handled Critical Part of the app such as Payments and Some Game Logic.
- Optimized the Backend code which results to 3 times server cost saving and fast response time.

Project - Lucky Numbers

- Used Strapi as backend and React Native (Expo) as frontend, Next.js for admin panel.
- Collaborated directly with Client and Designers.
- Improved the performance of app by 60% after optimizing previous algorithms.

FREELANCE PROJECTS

Blu Resort - Website with Booking Engine [🔗](#)

📅 March 2023 - June 2023

- Used SSR (Next.js) to improve User Experience and SEO.
- Created admin panel for CRUD Operation and handled authentication with next middlewares.
- Integrated Airpay Payment Gateway.

Eyetech - ECG training with Eye Tracking

📅 Sept 2023 - Dec 2023

- Developed with Next.js, MongoDB, Tailwind Css.
- Implemented Webcam Eye Tracking with Webgazer.js library.
- Created heat maps based on gazed data points.
- Added ECG annotations with HTML Canvas
- Optimized web app for the performance.
